Prompt injection
Tool allowlist, server authz, untrusted-content boundary, adversarial tests
E06 US-050 US-053, E12 US-112
Tenant leakage in retrieval
Tenant-scoped indexes and filters, access tests, per-tenant object controls
E01 US-003, E04 US-032
LLM latency and cost
Budgets, timeouts, model routing, safe caching, measurement
Duplicate webhook or tool execution
Durable inbox, idempotency keys, dedupe
E02 US-013, E06 US-052
Voice interruption and transcript race
Sequence ids, partial vs final, cancellation semantics
E09 US-082 US-083
Provider lock-in
Adapters, normalized contracts, contract tests
Unsupported AI answer
Retrieval eval, evidence thresholds, fallback and handoff
E04 US-033, E07 US-061
Scope too broad
Text MVP vertical slice, ordered backlog, defer channels
